KIT – An Introduction for New Staff Members

COST-FREE PARTICIPATION FOR KIT STAFF! The Karlsruhe Institute of Technology combines the missions of a university of the state of Baden-Württemberg with teaching and research tasks and a national research center of the Helmholtz Association conducting program-oriented research on behalf of the Federal Republic of Germany. Within these missions, KIT operates along the three strategic fields: research, teaching, and innovation. The course provides new staff members an overview of the organization, structures, facts and figures of the KIT. Following a comprehensive introduction, Business Units and Central Institutions as well as Staff Units present their tasks, thus providing a platform for attendees to receive information and ask questions on the various activities and processes performed and services offered. Guided visits of interesting research projects and installations located on Campus North and Campus South, respectively, complement the course.

The following topics are covered:
- KIT – Research, Teaching, Innovation
- Occupational Safety (FAS)
- Medical Services (MED)
- Human Resources (PSE), Human Resources Development and Trainee Department (PEBA), Conflict Management and Psychosocial Counseling (KMB)
- Equal Employment Opportunities (CHG)
- Staff Council
- KIT Library
- KIT Event Management (ASERV-VM)
- Center for Advanced Technological and Environmental Training (FTU)
- Karlsruhe House of Young Scientists (KHYS) and Young Investigator Network (YIN)
- Innovation and Relations Management (IRM)
- Research Office (FOR)
- International Affairs (INTL).

Every new KIT staff member will receive an invitation to attend this course.
The course takes place on 2 days: First day on Campus North from 09:00 am to 03:00 pm. Second morning on Campus South from 09:00 am to 01:00 pm.

TERMINE, PREISE UND BUCHUNGSMÖGLICHKEIT
